Everything Explained

Links:

You get 300 links that we build via forum profiles on sites with a domain page rank of at least 4. You get a total of 60 profiles; each one has 3 anchor text links to your site.

URL:

You can have ANY URL as long as it is a valid page; this could be video, articles or a page on your site.

Keywords:

The keywords can be any keyword you like.

Backlink boosting:

We build links to each page that contains links back to your site, this is where our service kills other similar services on the market.

We build 5 links to each page that contains backlinks to your site, this reduces the time it takes for backlinks to be indexed and increases the number of backlinks that are picked up by the search engines.

Link Report:

You will get a report that details all the links we build at your site. A report will look something like this:

	A	B	C	D	E	F
1			Site to link to			
2			keyword			
3	Gmail	username	password	URL		
4						
5						
6						
7						
8						
9						
10						
11						
12						
13						
14						

You will receive one for each different URL that you request backlinks to be built for.

Contact Details:

You will also get my personal Email should you have any questions or just want to chat about your project, I'm always happy to talk with clients about their sites, the weather or whatever's on your mind.
